

MEGA BIO SUN BRAID HOSE

Earth friendly
New generation hose for
sustainable society

MEGA BIO SUN BRAID HOSE meets the 15% biomass level.

Biomass mark can attach environmental products that utilize plant-derived resources (biomass) with quality and safety comply with relevant laws, regulations, standards, and specifications.

Using natural resources to
protect global environment

Specification Table for MEGA BIO SUN BRAID HOSE

Nominal designation	I.D. (mm)	O.D. (mm)	Regular size (m)	Max. working pressure MPa at 20°	Minimum bending radius (mm)	Regular size weight (kg)
BSB-15	15	22	100	1.0	60	26
BSB-19	19	26	50	1.0	76	16
BSB-25	25	33	50	1.0	100	23

Working temperature limit: -5~+60°C

Use

For water and air supply of machines and factories, water supply for engineering, and construction sites

Features

Excellent flexibility and easy pipe routing, high transparency for easy fluid confirmation Same durability and pressure resistance as MEGA Sun Braid Hose

Fluids

Note: Cannot be used for fuel oil

●Please refrain from secondary use of biomass marks.
